Solution Architecture:

A Solution architecture (SA) is an architectural description of a specific solution. SAs combine guidance from different enterprise architecture viewpoints (business, information and technical), as well as from the enterprise solution architecture (ESA). Ultimately, solution architecture is aimed at the following overarching goals:

- 1) Streamlining of day-to-day activities
- 2) Providing a more efficient production environment
- 3) Lowering costs and gaining cost-effectiveness
- 4) Providing a secure, stable, and supportable environment
